Outline

- Problem solving
- Communication
- Attitude
- Team
- Conclusion

From asking for answers to searching for docs

- Understand the code structure, coding style
- Understand the code review (CR) and release process
- Understand testing methods
- Learn where to search for answers

Plan and document your work, share with others

- Share working journal with your manager
- Jot down notes for the meeting
- Confirm your plan with stakeholders

Research Journal

Aug 12, 2020

https://store.steampowered.com/app/945360/Among_Us/

Aug 5, 2020 weekly updates

- Update superpoint
- FlowNet evaluation

FEEDBACK

Learn and contribute

- (Kindly) ask questions before giving opinions
- Contribute proactively when you can

Ask Questions to Improve Your Leadership

Ellen's Little Visits With God - What's Your Offer?

Team

- Meet the colleges and chat a bit

Conclusion

6 months after onboarding:

"In terms of delivering reults or on-call stuff, you're fine.

For the whole understanding of our team, you're still ramping up."

Thank you
